REMARKS

Applicants herein request amendment of the drawings of the present application

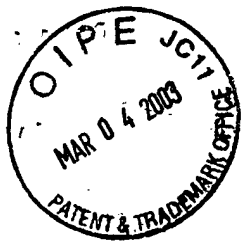

In the preliminary amendment submitted on February 25, 2002, the filing date of the present application, the specification was amended to recite priority to parent application USSN 09/072,967. The preliminary amendment also incorporates by reference all priority applications, including parent application USSN 09/072,967. Therefore, Applicants have support in the present application as filed for the new drawings submitted herewith, and amend the present application to incorporate 19 drawings from parent application USSN 09/072,967. Applicants also request that the 19 drawings initially filed with the present application be deleted. Applicants state that the new drawings submitted herewith are formal drawings which are otherwise identical to the drawings initially filed in patent application USSN 09/072,967, which was incorporated by reference in its entirety in the present application.

Respectfully submitted,

Annette S. Parent
